

Regulations and Approvals – PPF Disinfect

Complies with The Biocidal Products Regulation (BPR) Regulation (EU) 528/2012) of the European Parliament and of the Council (22nd May 2012) *Concerning the making available on the market and use of biocidal products.*

We are approved in PT1-5.

- | | | |
|---|--|--|
| 1 | Human hygiene | Biocidal products used for human hygiene purposes, applied on or in contact with human skin or scalps for the primary purpose of disinfecting the skin or scalp. |
| 2 | Disinfectants and algaecides not intended for direct application to humans or animals. | Products used for the disinfection of surfaces, materials, equipment and furniture which are not used for direct contact with food or feeding stuffs. Usage areas include, inter alia, swimming pools aquariums, bathing and other waters, air conditioning systems; walls and floors in private, public and industrial areas and in other areas for professional activities. Products used for disinfection of air, water not used for human or animal consumption, chemical toilets, waste water, hospital waste and soil. Products used as algaecides for treatment of swimming pools, aquariums and other waters and for remedial treatment of construction materials. Products used to be incorporated in textiles, tissues, masks, paints and other articles or materials with the purpose of producing treated articles with disinfecting properties. |
| 3 | Veterinary hygiene | Products used for veterinary hygiene purposes such as disinfectants, disinfecting soaps, oral or corporal hygiene products or with anti-microbial function. Products used to disinfect the materials and surfaces associated with the housing or transportation of animals. |
| 4 | Food and feed area | Products used for the disinfection of equipment, containers, consumption utensils, surfaces or pipework associated with the production, transport, storage, or consumption of food or feed (including drinking water) for humans and animals. Products used to impregnate materials that may enter into contact with food. |
| 5 | Drinking water | Products used for the disinfection of drinking water for both humans and animals. |

Tested to EN standards BSEN 1276, BSEN 1656, BSEN 13704, BSEN 14204, BSEN 13697.

Unlike other hypochlorous acid products on the market, our biocides (disinfectants) have been tested in independent UK laboratories and leading universities, and comply with the rigorous EU Biocide Regulations.
